

# Welcome to Piggles Family!

The Piggles Family system is an easy, family-based approach to help your kid(s) learn and practice life-long money management habits.

## It's Personal

Each family has their own set of money beliefs. With Piggles Family, you set the intention and values to impart. We give you the tools to make it happen.

## It's Flexible

The Piggles Family system is a set of 5 - 10 minute parent activities and kid-friendly micro-lessons. We suggest a cadence of at least one Piggles Family conversation a week, but you can adjust to your family's needs. Tackle this when the time and energy-levels are right.

## It's Doable

The lessons and goals you'll work through are small, manageable, and repeatable. Just walk through the setup on the following page and the Piggles family will guide you every step of the way.

Papa Piggle

Mama Piggle

Penny Piggle

Rex Piggle

We're excited for everything your family will learn and do together! Let's get started!

The Piggles Family Team

## Plug in the DigiPig.

Wait about a minute until the DigiPig has a blue connection symbol as shown in the picture to the right.

Troubleshooting: Make sure the pig is set up in range of a wireless internet signal for a 2.4Ghz network.

## Navigate to the DigiPig website.

On your computer or mobile device, go to <https://digipiggybank.com/setup>

## Enter the Device Code.

You can find the Device Code on the back of the DigiPig.

## Enter account information.

Use the email address and password provided on the back of the DigiPig.

Select the Continue button.

## Connect the DigiPig to your Wifi network.

Select the DigiPig's network from your computer/mobile device's list of wireless networks. The network name can be found on the back of the DigiPig.

Your computer/mobile device will disconnect from your Wifi during this step.

Select the Continue button.

Select your wireless network's name and enter your Wifi password.

Select the Connect button. It will take around 15-30 seconds to connect.

## Log in to test that it worked.

Select the Finish button to go to <https://digipiggybank.com>

Log in with the credentials provided and follow the onscreen instructions.

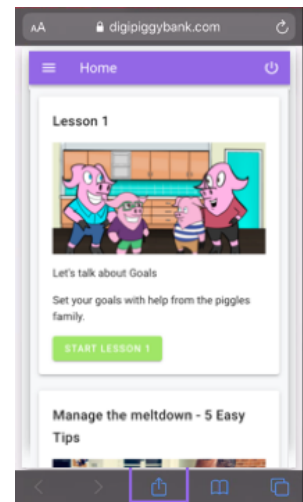

The blue connection symbol on the DigiPig should disappear.

If you need assistance with setup, contact [scottbutler@northwesternmutual.com](mailto:scottbutler@northwesternmutual.com)

## iOS (Apple) Setup

Follow the instructions below for easier login on an Apple device.

1. On your mobile device, open up Safari.
2. Navigate to <https://digipiggybank.com>
3. Sign in with the provided login credentials.
4. If a pop-up comes up asking if you would like Safari to remember your username/password, select yes.
5. After login, select the Share button found in the center of the bottom row of icons (pictured right).
6. Scroll down and select "Add to Home Screen".
7. The app is now available from your home screen.

## Android Setup

Follow the instructions below for easier login on an Android device.

1. On your mobile device, open up Chrome.
2. Navigate to <https://digipiggybank.com>
3. Sign in with the provided login credentials.
4. If a pop-up comes up asking if you would like Chrome to remember your username/password, select yes.
5. After login, select the Chrome settings (three vertical dots) in the top right corner (pictured right).
6. Select "Add to Home Screen".
7. The name DigiPiggy should already be filled in with the pig icon. Select "Add".
8. The app is now available from your home screen.
